PROFESSIONAL SUMMARY

Data Analyst with a background in operations, KPI monitoring and decision support. Recently completed a Postgraduate Program in Data Analysis for Business and currently studying Computer Engineering. Skilled in SQL, Python, Power BI, Excel and DAX, with hands-on projects in business intelligence, dashboard development, forecasting and automated data analysis. I bring a practical business perspective to data work, understanding what the numbers mean operationally as well as analytically.

TECHNICAL SKILLS

Languages & Tools: SQL, Python, DAX, Git, GitHub

BI & Visualisation: Power BI, Excel

Libraries: pandas, NumPy, Streamlit

Skills: Exploratory Data Analysis, Data Modelling, Dashboard Development, Data Cleaning, Forecasting, Data Transformation, Reporting

DATA ANALYTICS PROJECTS

Hotel Booking Analytics Dashboard | *SQL, Power BI, DAX*

[Repository](#)

- Designed and developed a multi-page Power BI dashboard covering booking performance, cancellation analysis, revenue trends and guest segmentation
- Prepared and validated booking data in SQL, creating calculated fields such as total nights, total guests and estimated revenue
- Built a star schema data model in Power BI with FactBookings and multiple dimension tables
- Created 15+ DAX measures for KPIs including cancellation rate, ADR, revenue and guest segmentation
- Developed business recommendations related to cancellation risk, direct booking growth and seasonal pricing optimization

M.A.I.A. — Automated Data Analysis App | *Python, Streamlit, pandas*

[Repository](#) | [Live demo: https://maia-app.streamlit.app/](https://maia-app.streamlit.app/)

- Built and deployed a Streamlit web application enabling interactive exploratory data analysis of CSV and Excel files
- Automated data profiling, quality checks, visualisation generation and business-oriented insight summaries
- Developed automatic data type detection and chart recommendation engine

Retail Sales Forecasting | *Python, Time Series Analysis, pandas*

[Repository](#)

- Contributed to an academic group forecasting project, responsible for data preparation, exploratory analysis and business interpretation of results
- Analysed model outputs evaluated against MAE, RMSE and WMAE metrics, translating findings into demand planning and inventory insights
- Identified seasonal sales patterns and recurring demand peaks with direct implications for inventory and commercial strategy

PROFESSIONAL EXPERIENCE

Axis Vermar, *Front Office Manager*

2018 – Present

- Tracked and reported on 5+ operational KPIs (occupancy rate, ADR, guest reviews, cancellation rate) supporting weekly management decisions
- Identified seasonal demand patterns and booking lead-time trends, contributing to pricing adjustments during peak periods

- Extracted and interpreted PMS data to surface operational trends, improving decision visibility for senior management
- Supported revenue and inventory management through ongoing booking analysis and operational reporting

Axis Hoteis, *Marketing*

2023 – 2025

- Analysed digital marketing campaign performance using key metrics and reporting data
- Monitored campaign results to identify improvement opportunities and support optimisation decisions
- Supported data-driven decisions across marketing and operational teams
- Collaborated with stakeholders to align campaign execution with business goals

Axis Vermar, *Front Office*

2017 – 2018

- Managed reservations, check-in/out processes and customer service in a high-volume hospitality environment

EDUCATION

Postgraduate Program in Data Analysis for Business

2025 – 2026

Polytechnic University of Cavado and Ave (IPCA)

Bachelor's Degree in Computer Engineering (ongoing)

2024 – Present

Universidade Aberta

Bachelor's Degree in Tourism Management

2014 – 2017

Polytechnic University of Cavado and Ave (IPCA)

CERTIFICATIONS

- Google Data Analytics Professional Certificate
- Data Analysis with Python — IBM
- Python for Data Science — IBM
- SQL for Data Science — UC Davis
- Data Analysis with Power BI — IPCA
